STORAGE INFORMATION

Universeal UK cable ties and related accessories are made from high quality Dupont nylon 66 resin.

Nylon both absorbs and releases moisture – for optimal performance the cable ties will need to contain 2-3% moisture. To ensure maximal performance, cable ties should be kept in accordance with the following storage conditions:

- ✓ The ideal storage climate for cable ties is between 15-20°C;
- ✓ Do not store or use cable ties in direct sunlight;
- ✓ Always keep the cable ties in sealed polyethylene bag provided – cable ties should be used shortly after opening the package;
- ✓ Do not store the cable ties next to warm objects, such as radiators or fan heaters

We also supply printed cable ties – please call us on **01829 760000** to discuss your requirements
