

## Specification Sheet

# UNI415 Security Seal

The **UNI415** is a specialised seal available in one of two configurations: (1) **non-tear off** and **label-holder** option; (2) **tear-off option** for removal by hand, **without label-holder**.

It has been designed particularly for sealing of **cash bags** and **mail sacks**, but is also popular as a multipurpose tagging seal. Its 60x26mm flag area is one of the largest in our range, for clear **visual identification**.

The UNI415 seal is a polypropylene pull through seal with metal insert and ultrasonic welding for **increased security**.

### Applications

Mail sacks and CIT (cash-in-transit) bags, as well as a range of other enclosures, such as tote boxes and election boxes, drinks kegs etc
