

Tracewaste Tear-off (UV002T)

Our Tracewaste Tear-off security seal is an alternative model to the UV002 Tracewaste security seal, **featuring a tear-line** along the length of the flag for **easy removal** of the seal, without the use of any tools.

This model is otherwise identical to our standard Tracewaste seal, featuring a large paddle for **high-quality thermal transfer** or hot-foil printing. This seal is available in **red, yellow or green colours as standard**, or our full colour range for larger requirements.

Applications

Sealing of cash bags, cargo sacks, trailer doors, tote boxes, waste sacks, roll cages, airline cargo and more.
