

## Specification Sheet

# UniLabel Security Labels

Our UniLabels are self-adhesive, security tamper-evident labels with sequential numbering, artwork or barcodes. They are designed to visually deform when removal is attempted; either leaving a permanent dry peel residue on the application surface on removal (residue label), or only deforming the label itself and leaving the sealed surface untouched (non-residue label).

### Applications

Aircraft doors, vehicle security, computers, panels, cabinets, envelopes, cartons, pallet strapping, DVD and CD cases, access doors, election and ballot boxes, documents, evidence bags

### Stock Size Guide

Small: 70mm x 20mm - Medium: 85mm x 40mm - Large: 130mm x 50mm (marked SEALED, sequential numbering)

### Material

Liner: Glassine paper white, 100gsm / Backing: Matt polyester film 0.045mm / Adhesive: Acrylic resin, pressure sensitive

### Available Colours

Stock Colour: Red - Other colours available on request: black, blue, green, yellow, orange, purple, white and clear

### Customisation Options

Full size and printing customisation options available, including logo or barcoding print
