

# UVWIRE – Sealing Wire

We offer a range of sealing wire types, from 0.6mm-1.6mm, suitable with sealing ferrules, lead seals, Twister seals and other security seals. We supply simple 2-line spiral way, or 7-strand twisted wire, in either galvanised or stainless steel options. We can also offer PVC coating if preferred. Sealing wire is available in reels, or in pre-cut wire lengths, bagged per 100pcs.

Description	Drawing	
Galvanised steel 7 lines 0,66mm		
Inox steel 7 lines 0,66mm		
Galvanised steel 7 lines 0,66mm + PVC coated		
Inox steel 7 lines 0,66mm + PVC coated		
Galvanised spiral 2 lines 0,50+0,30mm		
Inox spiral 2 lines 0,50+0,30mm
