

Meter, Utility and Wire Seals

Valve Lockout Connectors

Valve lockout security connectors provide a re-usable way of encasing industrial connectors and valves to prevent their misuse or tampering. Our polycarbonate connection locks are engineered in two separate parts to allow for easy install, and are secured in place around the valve by use of a UVTW meter seal - each connection cannot be accessed without first snipping off the Twist seal.

Technical Specifications

Material: Polycarbonate

Tensile Strength: n/a

Dimensions: DN20: 20mm / DN25: 25mm / DN40: 40mm

Customisation Options: Company logo and 6 digits sequential numbering

Applications: All industrial applications including brewery, food manufacture, water processing

Available Colours:    

Industries

Petro Chemical

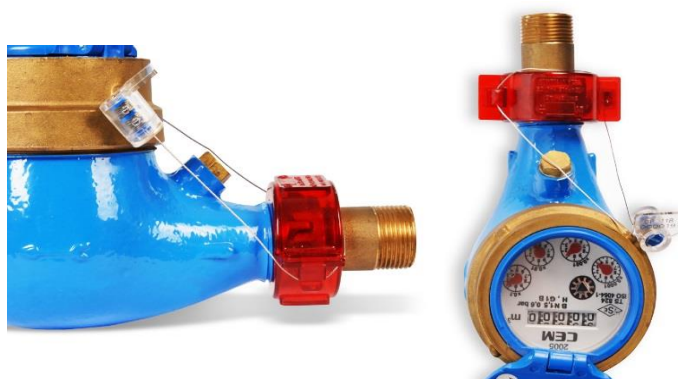

Utilities

Food & Drink

Packaging Specifications

	DN20	DN25	DN40
Quantity:	1000	250	250
Weight:	18kg	11kg	10kg
Dimensions	60x40x35	60x40x30	40x60x35
