

Specification Sheet: Tab Tie

Our Tab Tie is a versatile identification tie with a paddle for clear easy printing, introduced as an addition to our printed cable ties. The Tab Tie is manufactured in the UK and printed in fingers of 20, allowing for quick and inexpensive customisation for a range of applications.

2 sizes available: 200x4.8mm or 300x4.8mm (effective length)

Applications

Sealing and traceability over a range of applications - including clinical waste bags, document bags, safety chains and nets, lifting gear, hoses etc and many other asset tagging applications

Options

Polypropylene or Nylon models available. Printing of text, sequential numbers and barcodes.

Full range of colours available on request for large orders.

Packaging

3,000 / carton - 6 bags of 500pcs
Each bag has 25 layers of 20 ties
